SECTION 9.2.(b) The appropriate classification for placement of principals and assistant principals on the salary schedule, except for principals in alternative schools and in cooperative innovative high schools, shall be determined in accordance with the following schedule:

17	Classification	Number of Teachers Supervised

19	Principal I	Fewer than 11 Teachers
20	Principal II	11-21 Teachers
21	Principal III	22-32 Teachers

23	Principal V	44-54 Teachers
24	Principal VI	55-65 Teachers
25	Principal VII	66-100 Teachers
26	Principal VIII	More than 100 Teachers

The number of teachers supervised includes teachers and assistant principals paid from State funds only; it does not include teachers or assistant principals paid from non-State funds or the principal or teacher assistants.

The beginning classification for principals in alternative schools and in cooperative innovative high school programs shall be the Principal III level. Principals in alternative schools who supervise 33 or more teachers shall be classified according to the number of teachers supervised.

SECTION 9.2.(c) A principal shall be placed on the step on the salary schedule that reflects total number of years of experience as a certified employee of the public schools and an additional step for every three years of experience serving as a principal on or before June 30, 2009. A principal or assistant principal shall also continue to receive any additional State-funded percentage increases earned for the 1997-1998, 1998-1999, and 1999-2000 school years for improvement in student performance or maintaining a safe and orderly school.

SECTION 9.2.(d) Principals and assistant principals with certification based on academic preparation at the six-year degree level shall be paid a salary supplement of one hundred twenty-six dollars (\$126.00) per month and at the doctoral degree level shall be paid a salary supplement of two hundred fifty-three dollars (\$253.00) per month.

SECTION 9.2.(e) Longevity pay for principals and assistant principals shall be as provided for State employees under the North Carolina Human Resources Act.

SECTION 9.2.(f) If a principal is reassigned to a higher job classification because the principal is transferred to a school within a local school administrative unit with a larger number of State-allotted teachers, the principal shall be placed on the salary schedule as if the principal had served the principal's entire career as a principal at the higher job classification.

If a principal is reassigned to a lower job classification because the principal is transferred to a school within a local school administrative unit with a smaller number of

State-allotted teachers, the principal shall be placed on the salary schedule as if the principal had served the principal's entire career as a principal at the lower job classification.

This subsection applies to all transfers on or after the effective date of this section, except transfers in school systems that have been created, or will be created, by merging two or more school systems. Transfers in these merged systems are exempt from the provisions of this subsection for one calendar year following the date of the merger.

The stipend shall not exceed the difference between the beginning salary of an assistant principal plus the cost of tuition, fees, and books and any fellowship funds received by the intern as a full-time student, including awards of the Principal Fellows Program. The Principal Fellows Program or the school of education where the intern participates in a full-time master's in-school administration program shall supply the Department of Public Instruction with certification of eligible full-time interns.

The Department shall continue to implement a two-tiered system of payment for purchasing these local inpatient psychiatric beds or bed days based on acuity level with an enhanced rate of payment for inpatient psychiatric beds or bed days for individuals with higher acuity levels, as defined by the Department. The enhanced rate of payment for inpatient psychiatric beds or bed days for individuals with higher acuity levels shall not exceed the lowest average cost per patient bed day among the State psychiatric hospitals. Funds designated in this subsection for the purchase of local inpatient psychiatric beds or bed days shall not be used to supplant other funds appropriated or otherwise available to the Department for the purchase of inpatient psychiatric services through contracts with local hospitals. No more than ten percent (10%) of current recurring three-way funds may be available for use for other services across the crisis service continuum (Facility-Based Crisis and Non-Hospital Detox), to increase access to post acute care medications to 30 days, and to provide peer transition supports to help facilitate stabilization in the community for the first few months.

SECTION 12J.1.(b) Information to Be Included in Block Grant Plans. – The Department of Health and Human Services shall submit a separate plan for each Block Grant received and administered by the Department, and each plan shall include the following:

- (1) A delineation of the proposed allocations by program or activity, including State and federal match requirements.
- (2) A delineation of the proposed State and local administrative expenditures.
- (3) An identification of all new positions to be established through the Block Grant, including permanent, temporary, and time-limited positions.
- (4) A comparison of the proposed allocations by program or activity with two prior years' program and activity budgets and two prior years' actual program or activity expenditures.
- (5) A projection of current year expenditures by program or activity.
- (6) A projection of federal Block Grant funds available, including unspent federal funds from the current and prior fiscal years.

SECTION 12J.1.(c) Changes in Federal Fund Availability. – If the Congress of the United States increases the federal fund availability for any of the Block Grants or contingency funds and other grants related to existing Block Grants administered by the Department of Health and Human Services from the amounts appropriated in this section, the Department shall allocate the increase proportionally across the program and activity appropriations identified for that Block Grant in this section. In allocating an increase in federal fund availability, the Office of State Budget and Management shall not approve funding for new programs or activities not appropriated in this section.

If the Congress of the United States decreases the federal fund availability for any of the Block Grants or contingency funds and other grants related to existing Block Grants administered by the Department of Health and Human Services from the amounts appropriated in this section, the Department shall develop a plan to adjust the block grants based on reduced federal funding.

Notwithstanding the provisions of this subsection, for fiscal years 2013-2014 and 2014-2015, increases in the federal fund availability for the Temporary Assistance to Needy Families (TANF) Block Grant shall be used only for the North Carolina Child Care Subsidy program to pay for child care in four- or five-star rated facilities for four-year-old children and shall not be used to supplant State funds.

Prior to allocating the change in federal fund availability, the proposed allocation must be approved by the Office of State Budget and Management. If the Department adjusts the allocation of any Block Grant due to changes in federal fund availability, then a report shall be

made to the Joint Legislative Oversight Committee on Health and Human Services, the Joint Legislative Commission on Governmental Operations, and the Fiscal Research Division.

SECTION 12J.1.(d) Except as otherwise provided, appropriations from federal Block Grant funds are made for each year of the fiscal biennium ending June 30, 2015, according to the schedule enacted for State fiscal years 2013-2014 and 2014-2015 or until a new schedule is enacted by the General Assembly.

SECTION 12J.1.(e) All changes to the budgeted allocations to the Block Grants or contingency funds and other grants related to existing Block Grants administered by the Department of Health and Human Services that are not specifically addressed in this section shall be approved by the Office of State Budget and Management, and the Office of State Budget and Management shall consult with the Joint Legislative Commission on Governmental Operations for review prior to implementing the changes. The report shall include an itemized listing of affected programs, including associated changes in budgeted allocations. All changes to the budgeted allocations to the Block Grants shall be reported immediately to the Joint Legislative Oversight Committee on Health and Human Services and the Fiscal Research Division. This subsection does not apply to Block Grant changes caused by legislative salary increases and benefit adjustments.

SECTION 12J.1.(e1) Except as otherwise provided, the Department of Health and Human Services shall have flexibility to transfer funding between the Temporary Assistance to Needy Families (TANF) Block Grant and the TANF Emergency Contingency Funds Block Grant so long as the total allocation for the line items within those block grants remains the same.
